**EU LINE**

**3000PSI DOUBLE ACTING WELDED CYLINDER**

**2. Grease Fitting**  
M8 (standard) included

**E. Piston OD Seal**  
Compact seal w/plastic anti-extrusion ring(2)+filled PTFE guide ring(2)+ elastomeric energizer(1)

**3. Port Plug**  
Plastic

**1. Base End**  
High tensile SAE C1045 (UNI C45)

**9. Piston Nut**  
Lock nut, grade 8, high tensile zinc-plated

**F. Piston ID Seal**  
O-ring

**8. Piston**  
Split piston structure preventing the seal kits to be damaged during assembly

**D. Tube Seal**  
O-ring(1)+back up ring(1) for anti-extrusion

**4. Tube**  
High tensile cold drawn tube, precision honed for extended seal life

**C. Wear Ring**  
Phenol resin w/fabric for superexcellent life

**5. Rod**  
High tensile SAE C1045(UNI C45), ground & polished hard chrome plated rod

**B. Rod Seal**  
Polyurethane U-cup

**6. Rod End Cross Tube**  
High tensile steel

**7. Gland**  
High tensile steel

**A. Wiper**  
Polyurethane
